Is fitting your nemesis? Bring your favourite patterns and muslins and let's start fitting. Go home with your pattern, adjust the pattern, cut out the garment from scrap fabric or muslin, sew the fitting shell and then refine the fit and transfer your alterations to your pattern. Bring patterns for jackets, pants, tops, jeans, outerwear etc. Choose whatever pattern you want and whatever fabric suits the pattern, such as in woven, stretch woven or knits. THE MOST ULTIMATE JEAN FITTING WORKSHOP

\$600.00 + HST

Wednesday - Saturday April 17th, 18th, 19th & 20th, 10:30 am - 4:30 pm

This workshop will be started by Ron's detail in his jeans and jean jackets in various fabrics from traditional denim, twills and linen to faux leather and gabardine. You will see great techniques from seams, zippers, waistbands and more. Learn the different stitches that are used for topstitching and how to use heavy top-stitching and decorative stitches in your sewing machine and how to cut down the bulk in the waistband to avoid a lumpy front closure. Ron will teach some time saving techniques for professional results in bar tacking, belt loops, hems and rivets. The workshop will continue with the students trying on the jean pattern in the Closet Core "Ginger" jean in a total of 28 sizes (0-20) in both views with the additional size 22-32 in view A. Ron has sewn the "Ginger" pattern in both views A (low rise) and B (high rise) for you to try on! Ron then will identify your fitting problems and give you the necessary alterations (flat seat, protruding seat, low seat, knock/bowed legs, gaping waistband, length, etc.) for your jeans before cutting into your pattern. Also learn how to sew a hidden stay front to create a smooth and clean silhouette, giving the appearance of a flatter front. Sew the world's best fly zipper technique that moves the zipper further into the garment and prevents the zipper being exposed at the center front.

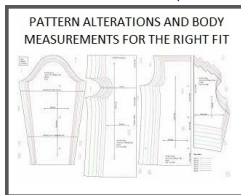

PATTERN ALTERATIONS & BODY MEASUREMENTS FOR THE RIGHT FIT

\$150.00 + HST Kit fee: \$30.00

Wednesday April 10th, 10:30 am - 4:30 pm

In this hands-on workshop you will learn how to identify the fitting problems and how to solve them. Ron will show you how to correct fitting problems regarding raising or lowering bust fullness in a princess seam, adding in a dart when a pattern requires one, moving a horizontal underarm dart to a vertical waist dart, altering for a small bust and increasing full bust for a princess seam. Along with pant alterations for knock and bowed legs, full and protruding seat, flat seat and many more. We will also take 28 body measurements: high bust, low bust, shoulder width, sleeve length, back waist length, pant and skirt length... plus, more... a total of 28 body measurements. Every student will have an alteration package to take home showing all the alterations done. Ron will give you the inside answer on what pattern companies run larger and which ones tend to run true to measurements. He will also explain how much wearing ease you need in all garments from close fitting, fitted, semi fitted, loose fitted and very loose fitted. Take the guesswork out of trying to choose what size garment by finding the "finished garment measurements" and not using the sizes on the back of the pattern envelope. See the difference in sizing charts in major pattern companies and how to choose the right size for you and how to avoid disappointment in fitting.
