PATTERN ALTERATIONS & BODY MEASUREMENTS FOR THE RIGHT FIT

Monday April 25th, 10:30 am – 4:30 pm

In this hands-on workshop you will learn how to identify the fitting problems and how to solve them. Ron will show you how to correct fitting problems regarding raising or lowering bust fullness in a princess seam, adding in a dart when a pattern requires one, moving a horizontal underarm dart to a vertical waist dart, altering for a small bust and increasing full bust for a princess seam. Along with pant alterations for knock and bowed legs, full and protruding seat, flat seat and many more. We will also take 28 body measurements: high bust, low bust, shoulder width, sleeve length, back waist length, pant and skirt length....plus more...a total of 28 body measurements. Every student will have an alteration package to take home showing all the alterations done. Ron will give you the inside answer on what pattern companies run larger and which ones tend to run true to measurements. He will also explain how much wearing ease you need in all garments from close fitting, fitted, semi fitted, loose fitted and very loose fitted. Take the guesswork out of trying to choose what size garment by finding the "finished garment measurements" and not using the sizes on the back of the pattern envelope. See the difference in sizing charts in major pattern companies and how to choose the right size for you and how to avoid disappointment in fitting. Kit fee: $30.00 payable to Ron the day of the class.

The workshop will start off with you trying on the jeans and Ron identifying your fitting problems and will give you the necessary alterations (flat seat, protruding seat, low seat, knock/bowed legs, gaping waistband, length, etc.) for your pattern before cutting into your fabric. Also learn how to sew a hidden stay front to create a smooth and clean silhouette, giving the appearance of a flatter front.
