CLASSES WITH VALERIE PATTERSON

LONGARM RENTAL CERTIFICATION CLASS

\$100.00 + HST

10:30 am - 4:00pm

Monday October 16th
OR Thursday November 23rd
OR Wednesday December 13th
OR Saturday January 27th
OR Monday February 5th

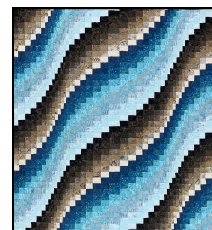

Would you like to take your quilts from conception to completion and really make them your own? Then this is the class for you! Perhaps you have had the opportunity to rent a long arm in the past and enjoyed the experience. Maybe you are tired of the fight with free motion quilt on your domestic sewing machine. Or you may have projects that have not been finished because professional quilting is too costly. We have the solution. The Bernina Q24 is an amazing system and it is now being offered to you through our newly created rental program. It has not one, but two stitch regulators to make all your stitches exactly the same length and it is the smoothest long arm you will ever try! Your quilting results will be, by far, your best ever. This tutorial will give you certification to rent our Bernina Q24 as frequently as you wish, always with a teacher by your side to lend a hand. Ask for further details from our staff and register for the class online. Rental fee is \$30/hour for a min of 3 hours. Any additional time required will be at a flat rate of \$30/hr. The number of hours required to complete your project will depend on each individual quilt & pattern. Rental periods are available from Monday - Saturday.

SURF SONG BARGELLO

\$50.00 + HST

Saturday November 18th, 10:30 am - 4:30 pm

The name "Bargello" originates from the "flame-like" embroidery design found on chairs in the Bargello palace in Florence Italy in the 17th century. (The palace was also a notorious prison, but enough of that.) Bargello entered the quilting world in the 1960's. The designs are known for their graceful, curved lines, all made without sewing a single curved seam. This class is suitable for confident beginners and up. As long as you can sew a 1/4 inch seam and can count to 20 you have all the skills required to make a quilt you can be proud of. Amaze your family and friends with the beauty and serenity of your Bargello quilt. You don't have to tell them how easy it was to make. In fact, I just wouldn't!

See what makes a successful buttonhole on your sewing machine, using the proper thread, needle sizes and needle types, stabilizer, and seam sealant. Learn how to do a corded buttonhole for bulky fabrics, great for a larger button that will stretch out your buttonhole over time. Bound buttonholes: if you ever did these buttonholes and did not like the finished results, Ron would show how he used a combination of bound and machine buttonholes which will beat anything in ready to wear. You love the creative look of an in-seam buttonhole which can be added horizontally or vertically to a man or woman's shirt. No need to fear buttonholes any longer.

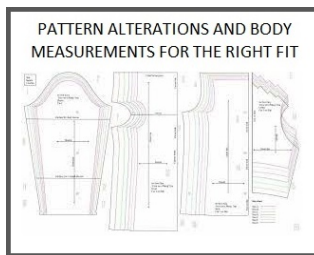

PATTERN ALTERATIONS & BODY MEASUREMENTS FOR THE RIGHT FIT

\$150.00 + HST Kit fee: \$30.00

Tuesday October 3rd, 10:30 am - 4:30 pm

In this hands-on workshop you will learn how to identify the fitting problems and how to solve them. Ron will show you how to correct fitting problems regarding raising or lowering bust fullness in a princess seam, adding in a dart when a pattern requires one, moving a horizontal underarm dart to a vertical waist dart, altering for a small bust and increasing full bust for a princess seam. Along with pant alterations for knock and bowed legs, full and protruding seat, flat seat and many more. We will also take 28 body measurements: high bust, low bust, shoulder width, sleeve length, back waist length, pant, and skirt length.... plus, more... a total of 28 body measurements. Every student will have an alteration package to take home showing all the alterations done. Ron will give you the inside answer on what pattern companies run larger and which ones tend to run true to measurements. He will also explain how much wearing ease you need in all garments from close fitting, fitted, semi fitted, loose fitted, and very loose fitted. Take the guesswork out of trying to choose what size garment by finding the "finished garment measurements" and not using the sizes on the back of the pattern envelope. See the difference in sizing charts in major pattern companies and how to choose the right size for you and how to avoid disappointment in fitting.
